BIO & RESEARCH INTERESTS

Yan Chen is an Assistant Professor of Computer Science at Virginia Tech (USA) where he directs the Programming with Intelligent Machines & Environments Lab (PRIME). Yan is active in the Human-Computer Interaction (HCI) research community. His research spans programming support tools, software engineering, crowdsourcing, and CS education. His work has been published at top HCI conferences, including ACM CHI, UIST, and CSCW. He received the Best Short Paper award at VL/HCC 2020, the Best Paper at L@S 2024, and Best Paper Honorable Mention Awards at UIST 2022 and CHI 2023. Yan was a Postdoctoral Fellow at the University of Toronto (Canada), working with Tovi Grossman. He received his Ph.D. degree, advised by Steve Oney, from the University of Michigan (USA), and BS and MS degrees in Applied Math and Electrical & Computer Engineering from the University of Colorado, Boulder (USA).

My research in HCI studies challenges that computer programmers at all levels of expertise face when using existing tools and methods to seek support. It combines human and machine computation to create programming support systems that can effectively and scalably assist programmers when needed. The systems I create address challenges including providing within-IDE help in nearly real time, providing feedback to learners at scale, synthesizing code snippets reliably, and testing an interface with high coverage, which neither computers nor humans can effectively solve alone. To make these systems possible, my research explores how to design workflows and interfaces that can effectively coordinate and scale the collective effort of experts, non-experts, and machines.

Keywords: Programming learning at scale, AI for education, Human-AI collaboration.

EDUCATION

University of Michigan, Ann Arbor, MI, US

Ph.D. in Information Science (2014 - 2020)

- Dissertation: On-demand Collaboration in Programming
- Advisor: Steve Oney
- Committee: Mark Ackerman, Mark Guzdial, Philip Guo

University of Colorado, Boulder, CO, US

M.S in Applied Mathematics (2014)

- Master Thesis: Asymptotic Series Solutions To One-Dimensional Helmholtz Equation
- Thesis Advisor: Harvey Segur

B.S. in Applied Mathematics and B.S. in Electrical and Computer Engineering (2014)

PROFESSIONAL EXPERIENCE

Virginia Tech, Blacksburg, VA, USA

- Assistant Professor, Computer Science Department (March 2023 - present)

University of Toronto, Toronto, Canada

- Postdoctoral Fellow, (Jan. 2021 - Dec. 2022)
- Host: Tovi Grossman

Google, Mountain View, CA, US

- UX Research Intern, (May. 2019 - Aug. 2019)

- Host: Dr. Tao Dong
Supporting programming learning via live streaming [8]

Snap Inc., Seattle, WA, US

- Research Intern, (Jan. 2018 - Apr. 2018)
- Hosts: Dr. Andrés Monroy-Hernández and Dr. Rajan Vaish
Interviewed with staffed Snap Story curators on their curation tools experience. Drew design implications. Developed a hybrid-machine workflow and system for rapid video curation. Conducted a large-scale (30k+ video) study to explore the effectiveness of the approach [4].

Harvard University, Cambridge, MA, US

- Undergraduate Research Intern, (Jun. 2013 - Aug. 2013)
- Advisors: Professor Katharina Reinecke, Professor Krzysztof Gajos
Developed a web application that quantifies websites' aesthetics and predicts visual preference of people with different cultural background.

University of Colorado, Boulder, CO, US

- Research Assistant, (Sep. 2012 - May 2014)
- Advisor: Professor Tom Yeh
Developed and conducted in-lab experiments for the active authentication project on personal computer and smart phone. Applied image and video processing techniques for pattern recognition [1].

University of Colorado, Boulder, CO, US

- Research Assistant, (Sep. 2012 - May 2014)
- Advisor: Professor Harvey Segur
Generalized hyperasymptotic series mechanism to approximate other functions. Discovered unavoidable oscillation in hyperasymptotic series mechanism.

CONFERENCE PAPERS AND JOURNALS

24. Kevin Pu, Daniel Lazaro, Ian Arawjo, Haijun Xia, Ziang Xiao, Tovi Grossman, **Yan Chen**. Assistance or Disruption? Exploring and Evaluating the Design and Trade-offs of Proactive AI Programming Support. ACM CHI 2025.

TEACHING EXPERIENCE

Virginia Tech (as the primary instructor)

- Social Computing and Computer-Supported Cooperative Work (Graduate level, Fall 2024)
- Creative Computing Studio (Senior level, Spring 2024)
- Advanced Topics in HCI: Human Factors in AI-powered Systems (Graduate level, Fall 2023)

University of Michigan (as a teaching assistant)

- Introduction to Programming (with Anthony Whyte), (Fall 2019)
- User Interface Development (with Walter Lasecki), (Winter 2019)
- User Interface Development (with Mark Guzdial), (Fall 2018)
- User Interface Development (with Mark Ackerman), (Fall 2017)
- Introduction to Programming (with Steve Oney and Paul Resnick), (Fall 2016)
- Data Visualization (with Eytan Adar), (Fall 2015)

STUDENTS (Co)ADVISED

Current

- **Panayu Keelawat** (2024 Fall -), PhD student at VT.
- **Adeline Li** (2024 Fall -), PhD student at VT.
- **Xiaohang Tang** (2023 Fall -), PhD student at VT.
- **Kevin Pu** (2021 Fall -), PhD student at U. of Toronto (w. Tovi Grossman at UofToronto).
- **David Barron** (2024 Fall -), MS at VT.
- **Griffin Ogura** (2024 Fall -), MS at VT.
- **Bogdan Perlroth** (2024 Summer -), Undergrad at VT.
- **Marcus Huynh** (2024 Summer -), Undergrad at VT.
- **Tejas Navadan** (2023 Fall -), Undergrad at VT.
- **Raman Khatri** (2023 Fall -), Undergrad at VT.
- **Jacob Martinage** (2023 Fall -), Undergrad at VT.
- **Xi Chen** (2023 Summer -), Undergrad at VT.
- **Zicheng He** (2024 Summer -), Undergrad at UVA.
- **Sam Wong** (2023 Summer -), MS at U. of Washington.

Alumni

- **Tong Wu** (2023 Fall - 2024 Fall), Grad student at VT.
- **Rexime Abulikemu** (2023 Fall - 2024 Fall), Grad student at VT.
- **Zhixuan Chen** (2024 Summer), Grad student at U. of Michigan.
- **Daniel Vargas Diaz** (2023 Spring - 2024 Spring), MS at VT.
- **Tianjia Wang** (2023 Spring - 2024 Spring), PhD student at VT (w. Chris Brown at VT)
- **Huayi Liu** (2023 Summer - 2024 Spring), Undergrad at VT. Now: MS at NUS

THESIS COMMITTEE

Virginia Tech

- Chenyu Mao, Spring 2025
- Andy Luu, Fall 2024
- Ramaraja Ramanujan, Spring 2024
- Yi Lu, Spring 2024
- Lemara Faith Williams, Spring 2024

- Daniel Vargas Diaz, Spring 2024

INVITED TALKS

- T5. *Hybrid Intelligence for Programming Support*
- Peking University, EECS (October 2021)
 - Microsoft PROSE Research Team (September 2021)
- T4. *On-demand Collaboration in Programming*
- University of Toronto (June 2020)
- T3. *Support Programming Learning via Livestream*
- Google Flutter Team (August 2019)
- T2. *Improving Crowd-Supported GUI Testing with Structural Guidance*
- Snapchat Research Team (April 2018)
- T1. *CodeOn: On-demand Expert Support for Software Development*
- Tsinghua University (June 2015)

GRANT

- G5** (awarded) VT TLOS Learning Innovation Grant 2024 (PI), Total: \$5k, personal share: \$5k.
G4 (awarded) VT 4VA 2025 (Co-PI), Total: \$10k. (w. PI, Jake Grohs at VT)
G3 (awarded) VT Instructional Grant 2024 (Co-PI), Total: \$10k. (w. PI, Sang Won Lee at VT)
G2 (awarded) VT TLOS Learning Innovation Grant 2023 (PI), Total: \$5k, personal share: \$5k.
G1 (awarded) 4VA 2023 (PI), Total: \$30k, personal share: \$30k. (w. Co-PI, Thomas Latoza at GMU)
